Washington, Feb. 12.—In the opinion of many leading senators, most of the cabinet, and probably of the president himself, conditions in Cube have made an extra session of congress necessary. These conditions have not changed materially, but there seems no chance of securing early action on the Cuban constitution, and the president considers the question of learning or stilying in Cuba entirely too serious to be settled by hisself alone, without help of congress.

When asked to whom he thought the democrats might turn for leadership in 1904. Mr. Smith said. "If Hill is out of it, why not sominate Wayne MeVesugh? He is a big, strong man. I believe I could head a delegation from Georgia pledged to his support. Ex-Secretary Ology is a splendid man, and the south would heartly indorse his nomination."

WARM FOR JOINTISTS

Citizens of Topeka Band to Drive Them from City.

Topeks, Kam., Feb. 13.—A mass meeting of the male citizens of Topeks, at which 2,000 men were present, decided that the numerous joints in the city must go. Friday noon, February 15, is named as the time when the cleansing of the city must be made complete. If it is not done by that time an army of 1,000 man will immediately move on the joints and remove them by force. The meeting was a remarkable one in avery reapper. It was attended by nearly all the prominent business men of the city. Conservative men who have heretofore advocated moderation in the dealings with the lawless alement, insisted in unmiatakable terms that the time had come when patience had ceased to me a virtua and that the people of Topeka should take the law in their own hands.

Twelve hundred men signed their names to cards pledging themselves to be ready at a moment's notice to join the army which has been recruited to stamp out the joints by the time the limit set by the ultimatum expires. The next few days in Topeks will see interesting developments, possibly bloodshed.

The jointlate generally took heed of the warning to close their places. When Chief Stahl and toe officars visited the 15 places they found them all closed with the exception of W. Finney's place, located at 231 Jefferson street. He was open and doing business as usual.

A committee was appointed to see the county attorney and get a warrant for a search of Mrs. Hicks' place. The attorney refused a warrant to search her place and seemmittee was sent to the joint and found a large quantity of beer, whisky and gin and turned it over to the city marshal. After the last mesting at the church had adjourned a crowd went to the city building, where the liquor was stored, and destroyed it.
